Quality of Work	Work (e.g., code) looks correct and organized. The project's readme file is clear, intelligible, and give a good idea of what the project is about.	Work (e.g., code) looks mostly correct and organized. The code could be better structured. OR the project readme file is somewhat unclear.	Work (e.g., code) is mostly disorganized. OR the project readme file is very unclear.	given.	3
Comments (e.g. Give an example of what could be improved. How can the code or readme file be improved?, etc.)					The project is already a function two player game if the players in in person. All the code looks very organized and the readme file is very descriptive.
Intellectual Merit	The project looks interesting, creative, and/or substantial.	The project is interesting, creative, and/or substantial, but does not seem feasible to do in a semester.	The project lacks substantial complexity.	No code is given or the project description is too vague to determine if the research has merit.	3

Comments (e.g. Give an example of what could be improved. If the project is too complex, what parts of the project could feasibly done? If the project is too simple, what features could be added?)				Very interesting project ideas. I don't have any experience with flask or websockets, so I have no idea what kind of timeframe he is working with. From what I can tell the project just needs the multiplayer function to be the project described in the readme file.
Video	The video gives a helpful, clear depiction of the project.	The video gives a helpful, clear depiction of the project, but is confusing or vague in parts.	 The video is missing or is inappropriate.	3
Comments (e.g. Give constructive feed back to help improve the presentation style.)				The video was extremely descriptive and showed every detail that the project had. Very good!
